Request for E-Waste Donations

"Less Waste, More Future: Recycle & Give Your Gadgets a Second Life."

Dear Parents,

We are pleased to inform you that Shree Vasishtha Vidhyalaya is actively participating in the **Recognition of International Dimension in School (RIDS) program**, in collaboration with our partner school **Doungduk Girls High School, Seoul, South Korea and the British Council**. One of the key projects under this international initiative is focused on **E-Waste Management**, aiming to create awareness among students about the hazards posed by electronic waste and encourage responsible disposal practices.

As part of this project, we kindly request your support in donating old or unused electronic items, such as:

- Old wires and cables
- Chargers
- Broken or unused electronic devices (e.g., phones, laptops, tablets)
- Other e-waste items not in use

These items will be utilized by our students to explore creative ways of recycling and disposing of e-waste responsibly, while also spreading awareness about its environmental impact.

We request that all donations should reach the school by 3rd October 2024. Also, keeping the environmental concerns in mind kindly carry these items in paper bags or wrapped in old papers and do not carry a plastic bag.

Your contributions will play an essential role in the success of this project and in fostering global collaboration and environmental responsibility.

Thank you for your continued support in shaping a sustainable future for our students and community.

Warm regards,

Team RIDS

Shree Vasishtha Vidhyalaya, Surat
