Dear Parents,

Warm greetings!

As we reach the mid-point of the academic year, we would like to extend our heartfelt gratitude for your unwavering support, trust, and cooperation. The past six months have been a journey of growth, learning, and shared commitment, and your involvement has played a vital role in strengthening the performance of your ward.

We are pleased to share an overview of our key achievements and the meaningful activities conducted during the term gone by. The initiatives were planned in alignment with the National Education Policy (NEP) to ensure an engaging, holistic, and enriching learning experience for every student.

Throughout the term, students participated in a variety of academic and co-curricular activities designed to promote experiential learning, creativity, collaboration, and critical thinking. Classroom projects, group activities, hands-on experiments, and educational visits were organised to strengthen conceptual understanding and connect learning with real-life situations. Special assemblies were conducted regularly to encourage public speaking, cultural awareness, value education, and confidence-building among students.

We are proud to share that our students have excelled in various sports at the district, zonal, state and National levels, demonstrating dedication, discipline, and sportsmanship.

The homework and vacation assignments provided are carefully planned to maintain continuity in learning. They are designed to be light, enjoyable, and meaningful, with a focus on reinforcing concepts, encouraging self-study, and integrating subjects creatively. These tasks ensure that learning remains consistent even beyond the classroom, without adding unnecessary stress.

We remain committed to fostering an environment where every child feels supported, motivated, and confident to explore their full potential. For any concerns regarding your child's progress, activities and well-being, please feel free to meet us.

We value open communication and look forward to continued cooperation.

With warm regards,

Dr. Gautam Guha
