The Pollution / Save Environment

- Today our environment is in danger. Modern world has created many environmental problems. Pollution is the greatest and worst enemy of human beings. There are four types of pollutions: i) air ii) water, iii) noise and iv) soil.
- Water is polluted by releasing chemical waste and dirty water. Noise pollution is increased by honking of vehicles, loud speakers and fireworks during festivals. Soil is polluted by throwing plastics, garbage and pesticides into the soil.
- To solve all these problems and save the environment, we should follow some steps. First we should grow more trees. They can purify the air. We should keep our surroundings clean. We should stop throwing garbage and chemical waste into the water, and soil. We must avoid loud and unnecessary noises.
- The government must take stern steps against pollution. We have to control our greed. If we want to stop it and save our planet, we must stop pollution.

Subject : How to prepare for Board Exam

Date : 01/08/2027

Dear brother,

→ How are you? I hope you are very fine at home. I know you are very busy in your Board Exam preparation. I am writing this e-mail to advise how to do preparations for the board exam.

→ First of all you should prepare a time-table and follow it. You should give more time to hard subjects. Revise all subjects two times before the exam. Write practice papers and get solved by your teachers. If you have any difficulties take advice of teachers. You should take care of your health. Do not read till late night. Take 6 hours rest.

→ You should take healthy diet and drink soft drinks. Do yoga which increases your concentration and memory power. Give my regards to our parents.

Yours loving sister,

Diya Patel.

58. → This is the picture about the railway station. It is a busy place. There is a train on the platform. The passengers are getting into it. We can see some stalls like tea, snacks, fruit etc. There are children buying some snacks. We can see that a woman is buying the fruits. A ~~coorman~~ man is sitting on the bench. A porter is going with the luggage on his head. There is a man near the woman who is selling the newspapers. We can see a clock hanging on the wall. The railway station looking neat and clean. Really, it is a beautiful picture!
