DIWALI ASSIGNMENT CLASS : XII

Student's Name: _____

Division: _____ Roll No: _____

At. & Po. Baben, Tal. Bardoli, Dist. Surat

Dear Parents,
Greetings from VGS Family!

As we celebrate the Festival of Lights, Diwali, we extend our warmest greetings and best wishes to you and your family. May this joyous occasion bring happiness, prosperity, and togetherness into your lives.

We are excited to share the spirit of Diwali with your children at school. Diwali is a time for reflection, renewal, and gratitude. It is a time to celebrate the triumph of light over darkness and good over evil.

Along with this message, we have enclosed subject-wise Diwali assignment sheet(s) for your child, each thoughtfully designed to enhance their understanding, while reinforcing their academic growth. We believe that these assignments will not only allow your child to appreciate the cultural and spiritual significance of Diwali but also promote their subject-specific knowledge and skills.

We kindly request that you encourage your child to complete these assignments enthusiastically and curiously. Our teachers have carefully curated them to align with their ongoing subjects, ensuring a seamless blend of celebration and education. Should your child require any support or clarification, please do not hesitate to reach out to our dedicated teaching staff.

We wish you a Diwali filled with love, joy, and the company of loved ones. May this festival illuminate your lives with positivity and prosperity, and may the completion of these assignments further brighten your child's academic journey.

Once again, wishing you all a Happy Diwali and a Prosperous New Year!

Warm regards,

Dr Gautam Guha
Principal

- The entire project needs to be Handwritten only.

5) INFORMATICS PRACTICES

Project Work (using concepts learned in class XI and XII)

- The aim of the class project is to create tangible and useful IT application. *The learner may identify a real-world problem by exploring the environment. e.g. Students can visit shops/business places, communities or other organizations in their localities and enquire about the functioning of the organization, and how data are generated, stored, and managed.
- The learner can take data stored in csv or database file and analyze using Python libraries and generate appropriate charts to visualize.
- Learners can use Python libraries of their choice to develop software for their school or any other social good.
- Learners should be sensitized to avoid plagiarism and violation of copyright issues while working on projects. Teachers should take necessary measures for this. Any resources (data, image etc.) used in the project must be suitably referenced.
- The project can be done individually or in groups of 2 to 3 students. The project should be started by students as per discussion in computer lab.
- Student(s) was/were already assigned his/her project in computer lab.
