Dear Diary,

Today was such a fun day at school! We did a science experiment in class where we made a volcano erupt! It was so cool! Our teacher, Mrs. Smith, brought baking soda, vinegar, and clay. We mixed the baking soda and clay to create the volcano shape. Then, we poured vinegar into the volcano, and it started erupting! The foam looked like lava.

I loved working with my friends, and we all cheered when the volcano erupted! It was such a blast! I can't wait for our next science experiment.

Yours truly,
