

**(Academic Session: 2024-25)**

**Name:** \_\_\_\_\_ **Ws-3 (PT-1)**

1. We celebrate the Earth Day on \_\_\_\_\_ every year.
2. \_\_\_\_\_ includes all the water bodies found on the Earth.
3. \_\_\_\_\_ is the colourless and odourless layer of gases that surrounds the Earth.
4. \_\_\_\_\_ is the innermost layer of the Earth.
5. We depend on the \_\_\_\_\_ for our existence.

- \_\_\_\_\_ % of the Earth's surface is covered with water.
  - 51
  - 29
  - 71
- This sphere supports all human activities such as farming, mining and industries.
  - Lithosphere
  - Atmosphere
  - hydrosphere
- Deforestation causes \_\_\_\_\_ pollution.
  - Water
  - Air
  - Noise
- This gas is present in atmosphere.
  - Oxygen
  - Nitrogen
  - Both (a) and (b)
- Each living organism has a specific environment in which it exists, which is called its \_\_\_\_\_.
  - Home
  - Lifestyle
  - Ecosystem
- Dumping of polythene bags in the park causes \_\_\_\_\_ pollution.
  - Soil
  - Air
  - Water
- Careless cutting of trees is also known as \_\_\_\_\_.
  - Afforestation
  - Deforestation
  - Reforestation

**C. Match the columns.**

Column A	Column B	Answers
1. Asthma	a. Noise pollution	1-
2. Cholera, jaundice	b. Land Pollution	2-
3. Deafness	c. 5 <sup>th</sup> June	3-
4. Overuse of fertilizers	d. Water Pollution	4-
5. World Environment Day	e. 5 <sup>th</sup> April	5-
	f. Air Pollution	

**D. State whether the following statements are true or false. Correct the false statements.**

1. Pollution makes the soil infertile.

Ans.

2. Water Pollution causes sleep disturbances.

Ans.

3. The biosphere includes those parts of the atmosphere, lithosphere and hydrosphere where life exists.

Ans.

4. Drinking polluted water causes asthma, skin allergies, etc.

Ans.

5. Carbon dioxide is vital for the survival of life on the Earth.

Ans.

6. Biosphere is like a protective shield which prevents the harmful rays of the sun from reaching the Earth's surface.

Ans.

7. Polluted water causes great harm to aquatic plants and animals.

Ans.

8. The process to remove poisonous from something is called soil erosion.

Ans.
