## My Summer Picnic

Last Saturday, my family had a delightful summer picnic at the park. We spread a colorful blanket under a big oak tree and enjoyed delicious sandwiches, fruits, and lemonade. The gentle breeze carried the sweet smell of fresh grass and blooming flowers. I watched butterflies flutter near the bright daisies and listened to the happy chirping of birds in the trees. The sun shone warmly on our faces, making the day feel like a perfect adventure. I will always remember the laughter, tasty treats, and the joyful moments shared with my family.

## The Enchanted House

I once saw an enchanted house in a quiet, green forest. The house was small and cute, with bright, twinkling lights on its walls. Its roof was curved like a magic mushroom, and the windows shone warmly as if inviting me in. Around the house, colorful flowers bloomed, and little birds sang happily in the trees. When I walked closer, I could almost hear a soft, gentle melody coming from inside. The enchanted house felt like a place where fairy tales come true, full of magic and wonder.

## Monsoon Season

Monsoon season is a very special time of the year. When the monsoon comes, the sky turns gray and dark, and gentle rain begins to fall. I love watching the raindrops as they dance on the rooftops and splash on the ground. The sound of rain is like a soft lullaby that makes everything feel calm and peaceful.

During the monsoon, the air smells fresh and clean. The thirsty plants drink the rain, and soon the whole garden is filled with bright, green leaves and colorful flowers. I like to wear my raincoat and boots and go outside to play. Jumping in puddles is my favorite fun activity, and sometimes I make little paper boats to float on the water.

Monsoon season is also a time when the world feels magical. The rain washes away the dust, making everything look new and shiny. I feel happy and excited during this season because nature comes alive in the rain, and every day brings a new adventure.
