**Q-7) Case study.**

Aman and his sister Neha run a small baking business from home. They bake cakes and cookies and sell them in their neighborhood. To keep their money safe, they opened a bank account in a nearby bank. Every week, they deposit their earnings in the bank. The bank helps them save money and also provides an ATM card to withdraw cash when needed. Because of the banking system, Aman and Neha can manage their baking business safely and easily.

**MCQs:**
