Q8. Answer the following short answer type questions:

i. Why do we need food?

Ans. We need food to stay alive and have energy to do work.

ii. Why are fibers important for our body?

Ans. Fibers help us get rid of undigested food from our body.

iii. Why should we not leave toys on the floor?

Ans. We should not leave toys on floor because someone may trip over them and get hurt.

iv. What is first aid?

Ans. The immediate care or help given to a person before medical help arrives is called first aid.

v. What do plants give us?

Ans. We get food, fibers, medicines, wood, paper, rubber, coffee, oils, spices etc. from plants.

vi. Why do we use spices in food?

Ans. We use spices in food to make it tasty.

vii. From where do we get pulses?

Ans. We get pulses from the grass family of plants.

viii. How are bulls and horses useful to us?

Ans. Bulls and horses are used to carry heavy loads and also help us to travel from one place to another.

ix. How are honeybees useful to us?

Ans. We get honey and wax from beehives. Beeswax is used to make candles, cosmetics, and medicines.

x. What are pet animals?

Ans. We keep animals like dogs, cats, rabbits, fish, and parrots at our homes. Such animals are called pet animals.
