Ch – 4 Water – Our Precious Resource

- Answer the following questions.

Q1 What will happen if there is no water on earth?

A1 If there is no water on earth, plants, animals and humans can not live. Everything will dry up and life will not be possible.

Q2 What is the rainwater harvesting system?

A2 Rainwater harvesting is a system of collecting and storing rainwater for later use.

Q3 Mention any three uses of water.

A3 Uses of water are – Drinking, cooking, washing clothes, watering plants etc.

Q4 How are human activities polluting water? [HOTS]

A4 Human activities pollute water by throwing garbage, plastic and dirty waste into rivers and lakes. This makes the water dirty and unsafe for people, animals and plants.
