Ans. The overall tone of the poem is Joyful.

10) What is meant by 'to sail along a page'?

Ans. It means we travel in our imagination to another time or place.

Q3. Read the following passage and choose the correct option:

The Importance of Bees

Bees are small insects, but they play a very important role in nature. They collect nectar from flowers to make honey. While doing this, they also carry pollen from one flower to another. This process is called pollination.

Pollination helps plants grow fruits and seeds. Many of the fruits and vegetables we eat, such as apples, cucumbers, and almonds, depend on bees. Without bees, farmers would find it very difficult to grow enough food.

Sadly, the number of bees is decreasing in many parts of the world. Pollution, loss of flowers, and harmful chemicals are some reasons for this decline. Protecting bees is important for keeping our environment healthy.

Questions

1. What do bees collect from flowers?
(a) Water
(b) Nectar
(c) Leaves
(d) Seeds
2. What is pollination?
(a) Making honey
(b) Flying from place to place
(c) Carrying pollen between flowers
(d) Building hives
3. Which fruit is mentioned as depending on bees in the above passage?
(a) Mango
(b) Watermelon

(c) Apples

(d) Papaya

4. Why are bees important to farmers?

a) They make soil soft

b) They protect crops

c) They help crops grow

d) They eat insects

5. What is one reason bees are decreasing?

(a) loss of flowers

(b) harmful chemicals

(c) Pollution

(d) All of these

6. Which word best describes the role of bees in nature?

a) Harmful

b) Unimportant

c) Helpful

d) Dangerous

7. What would happen without bees?

a) More flowers would grow

b) Less food would be produced

c) Honey would increase

d) Farming would stop completely

8. What is the passage mainly about?

a) Types of insects

b) How honey is sold

c) The importance of bees

d) Life on farms
