mother calm food Sunday beach rubbish clear wrappers
rake good bottles dustbin clean beverages

One Sunday morning, my mother and I decided to do some community work. So, we went to the beach. The sea looked calm and clear. But on the sand, we could see a lot of plastic and some leftovers. We knew that people sit on the beach, eat food and drink beverages. Then, they throw the empty wrappers and bottles on the sand. Mother and I picked up all the rubbish and put it into the dustbin. We also used a rake to clean the sand. We wish people keep the beach clean by throwing the garbage in the bins. We can all have a good time at the beach then.
