Thinking Skills

21st CS

1. Why does an elephant not have sharp claws?

An elephant does not have sharp claws because it does not eat other animals.

2. Will a polar bear be comfortable in a hot place?

A polar bear will not be comfortable in a hot place. Because of fur on its body it will feel very hot.

LEARNING BEYOND CLASSROOM

LS

Suppose you live in a hot place. You decide to go to a very cold place in the Himalayan mountains for a few days. The place is covered with snow.

List a few things you will take with you to make sure that you are comfortable during the trip.
