

Fascinating Plants

Plants are all around us. But some plants possess amazing features that fascinate all of us. Let us know about some such plants.

Identify the following plants and write their names from the Help Box.

1.

This carnivorous plant snaps shut when its tiny hairs are triggered by an insect.

Venus Flytrap

2.

These desert plants look like pebbles to avoid being eaten.

Lithop plant

3.

This amazingly looking plant can store thousands of liters of water in its thick trunk.

Baobab tree

4.

It is known for producing the largest flower in the world that smells like rotting meat.

Rafflesia arnoldii

5.

During its entire life, each plant produces only two leaves. The leaves grow throughout its life.

Welwitschia mirabilis

Help Box!

- a. Lithop plant
- b. Welwitschia mirabilis
- c. Venus Flytrap
- d. Baobab tree
- e. Rafflesia arnoldii

DISCUSSION POINT!

Discuss why some plants store excess amount of water.

2.

Seawater Animals

A lot of different types of animals live in the seawater. They are also called marine animals. Let us know about some of them.

Identify the following sea animals and write their names from the Help Box.

1.

It is a playful and friendly sea mammal. It communicates using clicks and whistles and often swims in groups called pods.

Dolphin

It is a brightly coloured orange and white fish. It has a special coating that protects it from stings and usually displays fascinating behaviour with adaptations in coral reef ecosystems.

Clownfish

2.

3.

It is an intelligent, soft-bodied sea animal with eight arms, three hearts and blue blood. This marine animal belongs to the mollusk family.

Octopus

They are found in the icy Arctic waters. The long tusks help them to survive in the harsh climate.

Walrus

4.

It is a duck-billed, beaver-tailed and egg-laying aquatic creature native to Australia. It primarily inhabits freshwater environments such as rivers and streams.

Platypus

5.

6.

It is a marine water species, inhabiting oceans and coastal regions. It is known for its elongated body and diverse ecological roles.

Eel

It is a highly adaptable marine mollusk found in oceans worldwide, known for its remarkable speed, intelligence and ink defense.

Squid

7.

8.

It is a social marine mammal that inhabits coastal waters of the Pacific and Atlantic oceans. It is recognised for its playful behaviour and distinct external ear flaps.

Sea Lion

Help Box!

- | | |
|--------------|-------------|
| a. Octopus | b. Platypus |
| c. Walrus | d. Dolphin |
| e. Sea Lion | f. Squid |
| g. Clownfish | h. Eel |

Riddle

With tusks like swords and whiskers grand,

I bask on ice instead of land—who am I?

Walrus

3.

Armoured Animals

Some animals have a protection shield which protect them from predators. Let us know about some armoured animals.

Identify the following animals and write their names from the Help Box.

1.

Turtle

2.

Crab

3.

Snail

4.

Armadillo

6.

Lobster

5.

Oyster

Help Box!

- | | |
|------------|--------------|
| a. Lobster | b. Armadillo |
| c. Snail | d. Turtle |
| e. Oyster | f. Crab |

Try it!

Can you name the animal covered in overlapping scales that act like armour?

- a. Pangolin b. Otter

Space Firsts

UNIT 2

Tech Time!

Beyond the atmosphere of Earth, the never-ending area all around is called space. Since ancient times, humans have been fascinated with the celestial bodies in space. Their quest to know more about them has resulted in space exploration.

Read the descriptions about space firsts and write their names using the Help Box.

1. He was the first Indian to go into space. He was an Indian Air Force pilot who flew aboard Soyuz T-11 on 3 April, 1984.

Rakesh Sharma

2. She was the first woman to go into space. She was a Russian cosmonaut who flew on Vostok 6 on June 16, 1963.

Valentina Tereshkova

3. He was the first human to step on the moon. He was the part of Apollo 11 which was the first manned mission to land on the moon.

Neil Armstrong

4. He was the first American to orbit the Earth in 1962. He later became the oldest person to venture into space.

John Glenn

5. He was a Russian cosmonaut who became the first human being to go into space in 1961.

Yuri Gagarin

Help Box!

- a. Yuri Gagarin b. Neil Armstrong
c. John Glenn d. Valentina Tereshkova
e. Rakesh Sharma

Curious Corner!

Laika, a Soviet space dog, was the first living creature to orbit the Earth in 1957.

About Human Body

Our body is a wonderful machine. It is made up of several organs. Let us see how much you know about human body.

Read each statement carefully. Write True if the statement is correct and False if it is incorrect.

1. The heart has four chambers that help it pump blood.*True*.....
2. The lungs are part of the digestive system.*False*.....
3. The brain sends messages to different parts of the body.*True*.....
4. The liver produces a liquid called bile that helps in digestion.*True*.....
5. The kidneys remove waste and extra water from the blood.*True*.....
6. The small intestine is shorter than the large intestine.*False*.....
7. The stomach uses strong acids to help break down food.*True*.....
8. The pancreas helps in both digestion and controlling sugar levels in the body.*True*.....
9. The brain is connected to the body through the spinal cord.*True*.....
10. The esophagus is a tube that carries food from the mouth to the stomach.*True*.....

Curious Corner!

Liver is the largest internal organ in human body.

DISCUSSION POINT!

Discuss how living style is affecting our health.

6. Artificial Intelligence

Artificial Intelligence (AI) is the ability of a computer or a machine to think, learn and act just as human beings do. The simulation of human intelligence in machines is done through certain computer programs and devices. Let us know about some simple terms used in Artificial Intelligence.

Match the terms with their suitable definition.

- | | |
|--|---|
| 1. Big Data - e | a. The process of analysing data in order to discover new patterns that can be used to improve the model |
| 2. Neural Network - f | b. A set of rules that a machine can follow to learn how to do a task |
| 3. Machine Learning - g | c. A function of Artificial Intelligence that helps computers process, interpret and analyse human language, and its characteristics by using natural language data |
| 4. Deep Learning - d | d. A function of Artificial Intelligence that imitates the human brain by learning from the way data is structured, rather than from an algorithm that is programmed to do one specific thing |
| 5. Data Mining - a | e. A very large and complex data that is difficult to be stored and processed by traditional data processing applications |
| 6. Chatbot - h | f. A machine model of the human brain that can perform many tasks involving speech, vision and board game strategy |
| 7. Natural Language Processing (NLP) - e | g. A subset of AI particularly focused on developing algorithms that will help machines learn and change in response to new data, without the help of a human |
| 8. Algorithm - b | h. A program that runs within websites and apps that interacts directly with users to help them with simple tasks |

Famous Indian Landmarks

India is home to numerous iconic landmarks that reflect its rich history, diverse culture and architectural brilliance. Here are some of the most famous landmarks you should not miss.

Identify the following landmarks and write their names from the Help Box.

1.

This historical fort, situated in Agra, was the main residence of the Mughal Emperors till 1638. It is a UNESCO world heritage site.

Agra Fort

2.

This is the largest mosque of India built by the Mughal Emperor Shah Jahan between 1644 and 1656.

Jama Masjid

3.

This temple, situated in Andhra Pradesh, is dedicated to Lord Venkateshwara (Vishnu).

Tirumala Venkateswara
Temple

4.

This is a fortified citadel and a ruined city lies on the western outskirts of Hyderabad in the state of Telangana.

Golconda Fort

This famous observatory was built by Maharaja Sawai Jai Singh at Delhi to study astronomy and calculate the time.

Jantar Mantar

This famous temple at Konark is designed in the shape of a decorated chariot with seven horses and 24 wheels.

Sun Temple

This is the tallest minaret of the world made up of bricks. It is 73 metres tall and contains 379 steps to the top.

Qutub Minar

This famous fort is located in Rajasthan. It is an extensive palace that includes the King's quarters, other rooms, gardens, temples, etc.

Amber Fort

Help Box!

- | | | | |
|----------------|------------------|------------------|----------------------------------|
| a. Qutub Minar | b. Jantar Mantar | c. Golconda Fort | d. Agra Fort |
| e. Sun Temple | f. Jama Masjid | g. Amber Fort | h. Tirumala Venkateshwara Temple |

Dishes and Their States

Hello Friends! You know that India is a land of many cultures and traditions. In every culture of India, there are many unique dishes that are enjoyed by people all over the country.

Time Management

Dear friends! In a limited period of time, we need to do a number of activities every day. If we waste our time on useless activities, we lose that time. So, we should value time and manage it in such a way that it never gets wasted.

Read the following sentences. Tick (✓) the ones which convey time management.

1. We should not spend time with our parents or grandparents, as it is just a wastage of time. ☐
2. We should depend on our parents or friends for reminding us about the tests and homework. ☐
3. We should make a priority list of the tasks assigned to us, and finish each task according to it. ☒
4. We should make a time-table for our everyday activities and follow it strictly. ☒
5. We should clean our room once in a week or month, rather than cleaning it every day to save time. ☐
6. We should never watch television or go to play when our examination is at the corner. ☒
7. We should start studying seriously only when we get the datesheet of the examination. ☐
8. We should not follow the time-table during vacations. ☐

Try It!

According to your school's time-table, how much time is allotted to studies and how much time is allotted to sports every week?

.....

20.

Quality of Being Honest

My friends! Do you know what honesty is? Telling the truth and being sincere is honesty. In simple words, it means not lying, cheating or stealing. We must always be honest.

Some instances are given below. Write them down in the right columns that follow.

1. Blaming a classmate for breaking your bottle which you broke by mistake
2. Admitting your mistake where you are wrong
3. Copying from your friend's answer sheet
4. Borrowing your friend's pencil and not feeling the need to return it
5. Stealing some money from your friend as you need to submit it urgently
6. Spreading rumours about a classmate that you dislike
7. Telling something true to the teacher that resulted in your punishment
8. Doing your homework without any help

HONEST

2. Admitting your mistake where you are wrong
7. Telling something true to the teacher that resulted in your punishment
8. Doing your homework without any help.

NOT HONEST

1. Blaming a classmate for breaking your bottle
3. Copying from your friend's answer sheet
4. Borrowing your friend's pencil and not -----
5. Stealing some money from your friend
6. Spreading rumours about a classmate that you dislike

Major Nutrients

Nutrients are those substances that we get from food. We need these nutrients to stay healthy, grow up and stay away from infections and diseases. There are many such nutrients that are divided into major groups.

Descriptions of some nutrient groups are given below. Identify and write their names from the Help Box.

1. It is a group of essential nutrients that help us stay healthy and fight off germs. They are found in most vegetables and fruits.

Vitamins

2. These foods give us energy and help our body keep warm. They help keep us cozy and also provide safety to our internal organs.

Fats

3. These foods act like fuel to our body. They give us energy to run, play and do other activities throughout the day. They make our brain and nervous system work well.

Carbohydrates

4. These are the type of food that help build strong bones and teeth, maintain healthy blood flow, boost immune system and heal injuries and wounds.

Minerals

5. These foods help us grow big and strong. They make our muscles and bones tough. They also help worn out muscles and tissues to repair.

Proteins

a. Fats b. Minerals c. Vitamins d. Proteins e. Carbohydrates

Environmental Activists

UNIT 9

Our Green Home

Most of the human activities have negatively impacted the environment. In fact, most of us continue to harm the environment without doing anything to protect it from further damage. But there are still some people who work towards protection and conservation of the environment.

Match pictures of these famous Indian environmental activists with their correct descriptions.

Medha Patkar

Dr Vandana Shiva

Sunita Narain

Rajendra Singh

- a. He gave up film-making to photograph and write about trees.
- b. He was the man behind the Chipko Movement. He died in 2021 due to Covid-19.
- c. Better known as the Forest Man of India, he spent thirty years of his life planting trees and creating a real man-made forest.
- d. She is an editor of the fortnightly magazine 'Down to Earth'. She is one of the most prominent environmental activists in India.
- e. She has been focussing on the effects of globalisation on India's food supply for decades.
- f. He founded the Dasholi Gram Swarajya Sangh in 1964. He was involved in the Chipko Movement.
- g. She is a famous environmentalist who also works for the rights of displaced people.
- h. Known as the 'Waterman of India', he is an Indian water conservationist and environmentalist from Rajasthan.

V. Pradip Krishen

Sunderlal Bahuguna

Jadav Payeng

Chandi Prasad Bhatt

23. Manage Your Wastes

Biodegradable waste refers to materials that can be broken down by natural processes. Non-biodegradable waste does not decompose naturally and remain in the environment for a long time.

Every household generates a lot of wastes every day. You can imagine how much waste is generated in your city every day. It is very difficult for the municipal workers to manage such a huge amount of waste every day.

We can help them by segregating wastes at our home. We can segregate wastes as biodegradable and non-biodegradable wastes.

Make a list of commonly generated wastes at your home as shown below.

- | | |
|--|--|
| 1. Food scraps (fruit and vegetable peels, leftovers, expired food) | 5. Dust and dirt from cleaning |
| 2. Plastic bags and wraps | 6. Paper (junk mail, newspapers, magazines, old documents) |
| 3. Empty personal care product containers (shampoo bottles, soap dispensers) | 7. Broken items (small electronics, toys) |
| 4. Toilet paper rolls, used tissues and old toothbrushes | 8. Batteries (household and electronic) |

Now, write the wastes in the correct column.

Biodegradable Waste

1. Food scraps (fruit and vegetable peels, leftovers, expired food)
2. Toilet paper rolls, used tissues and old toothbrushes
3. Paper (junk mail, newspapers, magazines, old documents)
4. Dust and dirt from cleaning

Non-biodegradable Waste

1. Plastic bags and wraps
2. Empty personal care product containers (shampoo bottles, soap dispensers)
3. Old toothbrushes
4. Broken items (small electronics)
5. Batteries (household and electronic)

Curious Corner!

Biodegradable wastes can be converted into compost which is beneficial for plants.

DISCUSSION POINT!

Discuss the importance of segregating biodegradable and non-biodegradable wastes.
